Address : 1149 McIntyre Dr. Ann Arbor 48105 MI

EDUCATION

Sep 13 – Current **University of Michigan**

PhD in Computer Science & Engineering, advised by Prof. Kang G. Shin

GPA 4.00

Feb 10 – Sep 12 **National Taiwan University**

M.S. in Department of Computer Science & Information Theory

GPA 3.90

Sep 06 – Feb 10 **National Chiao Tung University**

B.S. in Department of Computer Science

GPA 3.95 (Ranked first out of 52 people, and graduated in advance)

RESEARCH INTERESTS

Mobile Computing & Optimization

Wireless Networks & Security

HONORS & AWARDS

Rackham International Student (Chia-Lun Lo) Fellowship, 2014
Best Paper Nomination, ACM MOBICOM, 2012
Graduated First Place from CSIE, National Chiao Tung University, 2010
College Student Research Fellowship from National Science Council, Taiwan, 2010
National Chiao Tung University Presidential Awards, 6 semesters, 2006-2010
Scholarship from Taiwan Dao De Zong Huei Institute, 2006
Bronze Bamboo Scholarship from National Chiao Tung University, 2005

WORK EXPERIENCE

Four-month internship in CSAIL, Massachusetts Institute of Technology, 2012
Research assistant in Research Center for Information Technology Innovation, Academia Sinica, 2011
iOS/Android application developer in KingFong Corp., 2010

ATTENDED ACTIVITIES

ACM CCS 2014
ACM MOBICOM 2012
IEEE GLOBECOM 2011
Member of 1st Taiwan Embedded Camp, 2009
Organizer of 51th Anniversary Concert of National Chiao Tung University, 2009
Club leader for Star-Voice (Rock Music) Club in National Chiao Tung University, 2008

FINISHED PROJECTS

EchoTag : Accurate Indoor location tagging at 1cm resolution without infrastructure

- Implement location sensing based on active acoustic signature in Android

CSISec : Novel CSI estimation process at MU-MIMO

- Implement malicious attacks based on forged CSI and CSISec protocol in WARP boards

BumpFree : Mobile warning application for distracted pedestrians

- Implement acoustic/visual detection by JNI and OpenCV in Android

TurboRate : Rate adaptation of MU-MIMO system implementation

- Implement required components of rate adaption in MU-MIMO on USRP N200/USRP2

Bandwidth-aware P2P storage systems simulator

- Optimize and simulate bandwidth-aware P2P storage system in Network Simulator 2(NS2)

HiFace : Facial recognition-based social application on Android

- Enable students to extend social circles in classes easily by facial recognition in smart phones

Energy-efficient 802.11b protocol of VoIP in MANET

- Implement and evaluate VoIP and 802.11b MAC/PHY protocols on PXA-270 and WARP boards
